

Clear Diamond Water

Installation Instructions:

Polaris Twin:

1. Remove product from box.
2. Shut off main water line.
3. Discount water line to the cold side of the faucet.
4. Mount the filter to the wall using the mounting bracket provided with the filter unit.
5. Add pipe connection between the outlet side of the filter and the cold side of the faucet.
6. Connect the existing water line to the inlet side of the filter housing.
7. Turn on the main water line and check for water leaks.
8. Disregard the first glass of water.
9. Water is now ready for drinking.
